[:: NEWS THERMODET® composite sheets](#)

Welcome to MITRAS Materials in Weiden

MITRAS Materials is a medium sized industrial company in the plastic sheets extrusion business with an up-to-date organisation.

We develop, produce and sell semi finished thermoplastic sheets.

Our technical know how as well as our products represent resourceful solutions for demanding technical requirements and high level quality under the brand

THERMODET®

for more than 5 decades.

Our customers in the plastic sector all over Europe are thermoformers that convert our thermoplastic multi-layer sheets into technically demanding plastic parts using the thermoforming or vacuum forming process.

Well known final applications of THERMODET® - sheets are interior and exterior applications for the automotive sector, in the Caravan – and Leisure sector and in stocking and transportation logistics.

In its specific market niche **MITRAS Materials** is one of the leading sheet extrusion companies in Europe, with more than 50 years of experience and combines competence and high flexibility and short reaction time for the good of it's customers.

Plan your future with a strong, reliable partner – MITRAS Materials – with more than 50 years of extrusion experience.

Contact us, we are more than happy helping and advising you. We are looking forward to meet you.
